A live webcast of the presentation will be available on the Company's website at www.intest.com or via the following URL: <http://wsw.com/webcast/ldmicro14/intt/>.

For those interested in attending the conference, please contact David Scher at david@ldmicro.com or visit www.ldmicro.com/events for more information.

LD Micro was founded in 2006 with the sole purpose of being an independent resource in the microcap space. The firm hosts several influential conferences annually (Invitational, Summit, and Main Event). In 2015, LDM launched the first pure microcap index (the LDMI) to exclusively provide intraday information on the entire sector. LD will continue to provide valuable tools for the benefit of everyone in the small and micro-cap universe.

About inTEST Corporation

inTEST Corporation designs and manufactures engineered solutions for ATE and other electronic test, as well as industrial process applications. Our products are used by semiconductor manufacturers to perform development, qualifying and final testing of integrated circuits (ICs) and wafers, and for other electronic test across a range of industries including the automotive, defense/aerospace, energy, industrial and telecommunications markets. We offer induction heating products for joining and forming metals in a variety of industrial markets, including automotive, aerospace, machinery, wire & fasteners, medical, semiconductor, food & beverage, and packaging. Specific products include temperature management systems, induction heating products, manipulator and docking hardware products, and customized interface solutions. We have established strong relationships with our customers globally, which we support through a network of local offices. For more information visit www.intest.com.
