

inTEST Corporation Announces Opening of German Sales and Service Office

CHERRY HILL, N.J., Oct. 2 /PRNewswire/ -- inTEST Corporation (Nasdaq: INTT) today announced the recent opening of a sales and service office in Germany. The new subsidiary, inTEST GmbH, will be managed by Peter Ulbrich (Peter.Ulbrich@intestgmbh.de). Mr. Ulbrich has been involved with the Company's Temptronic products for over 10 years, most recently as the General Manager of UNS Technologies, which provided European OEM service for Temptronic products, and was a distributor for Temptronic products in Germany and Austria.

inTEST GmbH will provide sales and service in continental Europe for Temptronic products as well as sales and service for docking, interface, and positioner products for select accounts. The new office will complement the Company's existing operation located in the UK, which was established in 1985. Robert Matthiessen, President and Chief Executive Officer of inTEST commented, "I believe this new office will substantially improve our ability to service our existing customer base in Europe, and will allow inTEST to capitalize on the growth in the European semiconductor market."

inTEST GmbH is located in Mullrose, Germany, which is about 15km Southwest of Frankfurt and 100km Southeast of Berlin.

inTEST Corporation is a leading independent designer, manufacturer and marketer of interface solutions and temperature management products that semiconductor manufacturers use in conjunction with automatic test equipment in the testing of integrated circuits. Headquartered in Cherry Hill, New Jersey, inTEST has manufacturing facilities in New Jersey, Massachusetts, California, the UK and Singapore and design, sales, service and support offices in New Jersey, Massachusetts, California, the UK, Japan, Singapore, and Germany. Design, sales, service and support is also provided by inTEST personnel located in Arizona and Texas. SOURCE inTEST Corporation
